

Smart Silent Bathroom Extractor Fan Quiet Humidity Condensation Sensing with WiFi

Elevate Your Bathroom Experience with the
Smart Silent Extractor Fan

Product Title: EPWarmfloor Smart Silent Extractor Fan with WiFi Connectivity

The EPWarmfloor Smart Extractor Fan represents the convergence of innovative technology and sophisticated design, merging Italian aesthetics with German engineering to deliver superior performance.

Available in a diverse spectrum of contemporary colors—ranging from the subtle Ice White, which harmonizes seamlessly with minimalist environments, to the striking Ruby Star and Sapphire Black that draw attention to their surroundings—the EPWarmfloor Smart Fan is ideally suited for applications in bathrooms, kitchens, offices, and wet rooms where effective and unobtrusive ventilation is essential.

The fan features an advanced Silent Mode that ensures constant ventilation with minimal noise, effectively eliminating stale air without creating disturbances. It stands as one of the leading silent extractor fans currently available in the market.

Users can leverage various high-speed boost options via WiFi, accessible through a smartphone application. The fan is equipped with intelligent features including humidity and condensation control, light sensing, temperature regulation, a timer function, and a manual switch, thereby facilitating optimal air quality management tailored to specific requirements.

Installation is designed to be straightforward. The EPWarmfloor Extractor Fan can be surface-mounted to retrofit existing ducts of 100mm (4 inches) or 125mm (5 inches) through the use of the supplied spigot connections. Wiring configurations allow for either a two or three-wire setup linked to lighting circuits, pull cords, or switches.

This EPWarmfloor Smart Extractor Fan is not only highly efficient but also incurs minimal operating costs. With a German-engineered DC motor, it consumes less than 4 watts of power and boasts an A+ energy rating. The EPWarmfloor Smart Extractor Fan is an exemplary product that combines modern design, efficiency, and effective performance, making it a valuable addition to any professional or residential environment.

Key Features:

- **Whisper-Quiet Operation:** Enjoy a peaceful bathroom environment with super silent running, thanks to its specially designed motor and advanced technology.
- **Intelligent Controls:** Manage your fan effortlessly through the dedicated app, allowing you to set up various modes, including humidity sensing, timer functions, light sensing, and even a motion sensor option.
- **Impressive Airflow:** With an extract airflow rate of up to 133 m³/hour, this fan ensures rapid and efficient ventilation, eliminating humidity and condensation with ease.
- **Energy-Efficient:** Equipped with a German motor, it's not only low voltage but also energy-efficient, boasting an A+ low energy rating.
- **Stylish Design:** Choose from a range of contemporary colors to match your bathroom decor, from Ice White to vibrant Ruby Star and Sapphire Black
- Bathrooms, toilets, wet rooms, en-suites, shower rooms, and cloakrooms.
- Kitchens, utility rooms, and laundry rooms.
- Offices, playrooms, living areas, or any space that requires effective ventilation.
- Retrofitting in place of older, unattractive extractor fans.
- Combating condensation, mold, and musky odors in damp spaces.
- Noise-sensitive rooms that require a peaceful atmosphere.
- Easy to retrofit on existing ventilation.

With intelligent electronics, high airflow capacity, and an array of versatile functions, this fan ensures an ideal microclimate in your bathroom. Its high-efficiency DC motor, wide power supply range, and built-in safety features further enhance its performance and reliability.

In conclusion, the Smart Silent Extractor Fan represents the pinnacle of modern bathroom ventilation. Its smart features, energy efficiency, and whisper-quiet operation make it a standout choice for anyone looking to elevate their bathroom experience. Say goodbye to humidity, condensation, and noise—welcome the future of bathroom ventilation with the EPWarmfloor Smart Silent Extractor Fan.
